

Muddy Paths Project - Final Report 18-1-17

Green Squares on map below indicate 24 locations where repairs completed.

There were some variations from the original puddle map, partly due to the much drier than usual Autumn changing the puddle pattern and partly to prioritise the most heavily used problem areas.

Statistics

435 bags and 6 cubic metres of woodchip totals received. Cost to FSW after grants and gifts = £ 297.84. Cost if all paid for by FSW = £1028.64

434 gravel bags spread, 1 gravel bag stolen from Field 1 store.
